- Detailed description

Selection of the suitable SONOREX SUPER depends on the sizes and numbers of objects to be cleaned and of the sample vessels to be sonicated. Different sizes of ultrasonic baths starting from 0.9 to 58.0 litres are available for various applications.

Features:

- PZT-large area oscillating systems
- HF-Frequency 35 kHz
- Timer 1 - 15 minutes and continuous operation
- H-types with built-in heating, 30 - 80 °C (86 to 176 °F) thermostatically adjustable, RK 31 H fixed at 65 °C/149 °F
- Oscillating tank of hard chromium stainless steel at RK 102 H
- Housing of stainless steel - drip proof
- Drain cock included for easy emptying (from RK 100 SH upward)
- Mains connection 230 V~ (±10 %), on request 115 V~ (±10 %), 50/60 Hz
- SONOREX SUPER units are CE marked.
- Units of the SONOREX SUPER CH from 45 to 90 litres capacity range have a very long life due to the extraordinarily high solidity of the tank made of welded 2 mm titanium stabilized stainless steel (AISI 316 Ti).
