

Parameters

Quantitative unit

ks

- Detailed description

Laboratory benchtop **pH 50 VioLab** pH/mV-metr is equipped with a large multifunctional LCD display that shows actually measured pH or mV value and temperature. The display also shows graphic symbols informing about instrument status, error messages and stability indicator.

Applications

- school laboratories
- galvanic baths control
- chemical industry
- titration and QC
- food and beverage industry
- pharmaceutical industry and clinical laboratories
- water industry

Main features

• Resolution (0,1/0,01 pH) • Automatic calibration to 3 points, buffer recognition • Stability indicator • Automatic/manual temperature compensation (ATC) • Large LCD display

pH 50 VioLab complete kit with pH electrode includes pH electrode CHS ChemFlex T BNC, cable S7/BNC, temperature probe NT55, colored pH buffer solution pH 7 and pH 4, electrodes arm, power supply and accessories.
