Order code: **4104.91000**

Information about product price on demand

Parameters

Quantitative unit

ks

- Detailed description

Features

## REALISM

- 10 lung sounds and 23 heart sounds covering normal, common, and specialist conditions
- Accurate placement of stethoscope possible
- Designed using patient ECG results and x-rays
- Symmetrical chest movement
- Asymmetrical chest movement
- Varying rate of breathing for different skill levels
- Mouth breath sounds when breathing add to the periphery examination of the patient

## VERSATILITY

- Respiratory and cardiovascular examinations can be performed in an upright or supine position
- This model can be used for male or female scenarios
- LimbPad can be used with most standard stethoscopes
- An additional LimbPad can be added to allow side-by-side training of two students
- Classroom training is also possible, with the use of an external speaker and a 3.5mm aux cable

## CLEANING

- Clean this product with a damp soft cloth and warm water with mild detergent
- Allow the trainer to completely dry before storing

## SAFETY

- Ensure you have a good grip on the CaRE model before repositioning
- Complete trainer and accessories are heavy when packed
- Safe moving practices: two people when carrying, one person using a trolley
- This simulator contains electronics, do not submerge in water
