

AD-1683EX - Static Eliminator
Order code: **0107.1683**

Cena bez DPH	1.424,00 Eur
Price with VAT	1.723,04 Eur

Parameters

Quantitative unit ks

- Can be easily and safely installed because they require no high-voltage wiring
- Being of a DC type, this static eliminator has a remarkable ability for generating ions and can be used for elimination of static charges from quickly running or highly electrified workpieces
- Little or no reverse charge is induced by irradiated ions because of its excellent ion polarity balance
- Achieves static elimination with a high degree of efficiency regardless of the polarity or the potential of the charged object
- Suited for static elimination in narrow and remote places because of its lengthy ion irradiation distance
- Produces only a little amount of ozone thanks to its high ion generation efficiency
- A current limiting circuit is incorporated in the ion generating electrode to reduce the possibility of electric shock
- Being of a DC type, this static eliminator, unlike PULSE-DC, involves no swing in surface potential of the charged object
