

## AC9/7 - Scopin II (Broncho Boy) Trainer

Order code: **4101.AC9/7**

Information about product price on demand

Parameters

Quantitative unit

ks

### Skills

- Flexible fibre-optic bronchoscopy
- Rigid bronchoscopy
- Fibre-optic-guided naso and orotracheal intubation
- Laryngoscopic intubation
- Autofluorescent bronchoscopy

### Features

- Broncho-Boy incorporates a number of innovations enabling its use in a variety of training settings, including:
  - Retroflexion and left-right rotation of the head for laryngoscopic, orotracheal and bronchoscopic intubation
  - Acoustic warning signal if excessive pressure exerted on upper teeth by rigid tube or laryngoscope
  - Slightly widened and softer nasal passages for fibre-optic guided, nasotracheal intubation; reduced danger of damage to sheath
  - Interchangeable, membrane-connected bladders enabling stethoscopic confirmation of ET tube placement
  - New, spring-based supports for tracheo-bronchial tree, increase pliability, and greatly reduce the likelihood of bronchoscope damage
