**LF01162 - Venatech IV Trainer**  
Order code: **4107.LF01162**

Cena bez DPH	129,00 Eur
Price with VAT	156,09 Eur

Parameters

Cannula, injection, puncturing - filter	Kanyly
Quantitative unit	ks

This patented IV trainer is so economical each student can have their own for venipuncture practice — no more precious class time wasted waiting for their turn! This IV trainer is easily attached to a person's arm so the student can practice venipuncture techniques on a live subject, including the proper positioning on an actual human arm, without the risks associated with puncturing living tissue. The Venatech IV trainer is ideal for practicing starting IVs in a moving ambulance. The trainer includes the three main veins used in phlebotomy — cephalic, basilic, and median cubital — all in correct anatomical position. An arterial vessel is present on the trainer for arterial blood gas simulation, and can also be used as a tool for showing how to correct the puncture through a vein into an artery. Besides performing actual IV practice, the trainer helps students learn essential communication skills and patient interaction. Three-year warranty. Trainer measures 6 3/4 " x 3 1/4 " x 1" (18 x 8 x 2 cm). Sh. wt. 2 lbs. (0.91 kg).

**Optional Accessories**

- LF01163 - Venatech IV Trainer - Black
- LF01177 - Vein Replacement Kit
- LF01165 - Vein, and Artery Replacement Kit - White
- LF01166 - Vein, and Artery Replacement Kit - Black
