Quantitative unit ks

You will appreciate the convenience of having the Life/form® Enema Administration Simulator to teach enema procedures. Use it for group demonstrations and practice sessions of any size. Each student can realistically practice administering an enema using this lifelike model. The standard enema procedures can be performed using conventional enema apparatus — no special equipment is required. All aspects of the simulator are lifelike in every detail. The upper buttock is flexible so that the trainee must raise the buttock in order to locate and make insertion into the anus. The simulator is portable and easy to use. A drain tube is provided so that the fluid can be drained directly into a large container or sink, for continuous use. Includes a hard carrying case, enema administration set, and teaching guide. Three-year warranty. Size: 18" x 18" x 12" (46 x 46 x 30 cm).
