Kanyly

Quantitative unit

ks

A soft tissue strap-on pad for use in venepuncture which represents the antecubital fossa of the right arm.

Skills

- Professional-to-patient communication
- Recognition of the vein pattern through palpation
- Insertion of a needle
- Introduction of a cannula

- Management of blood flow
- When connected to a blood reservoir:
 - withdrawal of blood
 - use of a Vacutainer® or similar product

Features

- Designed to be strapped onto the antecubital fossa of the arm
- Veins are:
 - self sealing for repeated use
 - rechargeable via a one-way valve
 - supplied with mock blood under pressure
 - replaceable
- The pad can be connected to the Mock Blood Giving Set to simulate blood flow
- Strong backing plate to prevent needle stick injuries
- Replaceable epidermis is washable using soap and water

Package supplied

- 1 pad base with strap
- 1 Vein for ACF Pad 00180
- 1 Epidermis for ACF Pad 00170
