The Economy Adult Sani-Manikin is lifelike and affordable, these CPR trainers let you provide students with their own manikin. The simple face shield lung system means no cleaning, no disinfecting, and no disassembly required.

The manikins include head tilt/chin lift feature to open the airway, tough vinyl skin for extended service, and a foam-filled torso for resistance to compressions, palpable landmarks to ensure proper hand placement, and observable chest rise to verify ventilation.

Includes three airways and instructions for use.
