The Brad CPR manikins is constructed of soft, realistic vinyl plastic over polyurethane foam. With AED trainers, it provides the best possible pricing for this combination. Increase your patient survival by regular practice on these rugged, durable, and easy-to-clean manikins that augment skill learning and retention.

Features:

- Long torso for realistic abdominal thrusts
- Realistic head tilt and chin lift for opening airway
- Anatomical landmarks including sternum and rib cage plus substernal notch
- Airway can be easily manipulated to simulate airway obstruction or choking situations

- Electronics indicate correct hand placement, adequate depth of compression and ventilation by illuminating individual light signals.

Also included are three disposable/lung airway systems and three channel design mouth/nosepieces. Tested true for over a million compressions. Carry bag and kneeling pads included. Latex free.
