LF03770 - Chest Tube Manikin

Order code: **4107.LF03770**

Cena bez DPH	2.654,00 Eur
Price with VAT	3.211,34 Eur

Parameters

Cannula, injection, puncturing - filter	Trup
Quantitative unit	ks

This manikin is designed specifically to teach the theory, anatomy, and skills needed to manage pre-hospital chest trauma, as well as ongoing chest tube maintenance. The right side of the manikin has two cut-away viewing areas to provide awareness of the anatomical relationships between the skin surface, musculature, ribs, and lungs. The left side has a pressurized tension pneumothorax site to relieve air that has accumulated within the pleural space and is restricting lung inflation. There is also a site where chest tubes may be surgically placed to treat pleural effusion by draining fluids from the pleural space. The fluid color, volume, and viscosity is controlled by the instructor. The Life/form® Chest Tube Manikin is perfect for teaching the concepts and mechanics of closed water-seal drainage systems like "Pleur-Evac" type units. Manikin comes with two visual sites for chest tube maintenance, five replaceable surgical chest tube sites, five replaceable pneumothorax chest pads, and hard carrying case. (Chest tubes or water-seal drainage system not included). Three-year warranty. Sh. wt. 30 lbs. (13.61 kg).

Available Supplies

- LF03773 - Pneumothorax Pads
- LF03771 - Surgical Skin Pads

- LF03772 - Subcutaneous Pads
- LF03775 - Blood Powder
- LF03774 - Methyl Cellulose
