Parameters

Pumping rate [l/min]	20
Threshold pressure [kPa]	10
Overpressure [kPa]	100
Quantitative unit	ks

- Modern membrane air-pumps for general use
- Resistance to aggressive gases, vapours, lyes and solvent organic
- Silent run
- Compact design with integrated handle
- All parts being in contact with the drawn medium, made of Teflon
- KN type - neoprene diaphragm
- KT type - teflon layer diaphragm (to increase chemical resistance)
- Power feed 230 V
- No oil included
- Suitable for aggressive substances
