Parameters

Obstetrics, gynecology - filter

Birth simulators

Quantitative unit

ks

- Normal or breech delivery
- Demonstrate internal rotation, expulsion and external rotation

- Inflatable cushion lifts fetus for Leopold maneuver
- Practice intrauterine manipulation to convert breech, or transverse to vertex delivery
- Adaptive birth canal to demonstrate dystocia and deal with its relief
- Three dilating cervixes
- One piece fetus for “version” exercises
- One padded stomach cover
- Three vulval inserts
- Two placentas
- Three umbilical cords
- Silicone lube and talcum powder
- Instruction manual
- Carrying bag

Use OB Susie to demonstrate the following:

- Normal or breech deliveries
- Leopold maneuvers
- Intrauterine manipulation
- Cord prolapse
- Placenta previa
- Fundal massage
- Postpartum care

Palpation for Leopold Maneuvers

- Place fetus in vertex, transverse, or breech position
- Lower cushion raises fetus for palpation
- Soft stomach cover facilitates palpation or fetal manipulation

Normal Vaginal Delivery

- Birth from ROA or LOP positions
- Demonstrate rotation and expulsion
- Cervix dilates as labor progresses
- Position placenta to simulate placenta previa
- Practice reduction of nuchal cord

Breech and Vacuum Delivery

- Place fetus on birthing mechanism in normal or breech position
- Teach Pinard “leg flip” during breech
- Pause normal delivery to create need for vacuum augmentation

Postpartum Activity

- Practice fundal massage to firm a “boggy” uterus
- Modules feature medical episiotomy with tears in the labia minora, mediolateral tears, and standard mediolateral episiotomy
