Parameters

Construction Adult manikin

Quantitative unit ks

The 5 ft. 5" tall full body CPR/Trauma Manikin is a foam-filled, latex free and lightweight manikin that has joint mobility for easy positioning in all types of environments.

Features:

- Carotid pulse controlled by a squeeze bulb
- Simulaids patented ball valve airway system
- Removable face pieces for controlling cross-contamination
- Anatomical landmarks for determining proper hand position for compressions
- Five lung systems and five removable face pieces are also included

The available options are a lower IV Arm, Trauma Moulage Kit, Transport Rescue Head (to preserve the CPR head during rugged rescue evolutions) and a carry bag.

Order item No. 2725 "with Electronics" and receive a device that will illuminate individual light signals showing correct hand placement, adequate depth of compression, and ventilation.

Size: 50" x 21" x 11" **Sh. wt.** 51 lbs.
