Adult manikin

Quantitative unit

ks

This adult manikin is a great trainer for introductory as well as advanced students.

Manikin simulates a nonanesthetized patient for practicing intubation, ventilation, suction, and CPR techniques.

Realistic anatomy and landmarks include teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false cords, true vocal cords, trachea, lungs, esophagus, and stomach.

The manikin allows you to practice oral, digital, and nasal intubation, as well as E.T., E.O.A., P.T.L., L.M.A., E.G.T.A., Combitube®, and King System insertion. Suction techniques and proper cuff inflation may also be practiced and evaluated.

Applying pressure to the cricoid cartilage changes the position of the trachea and closes the esophagus, allowing realistic practice of the Sellick maneuver. Manual carotid pulse.

Manikin includes hard travel/storage case and supplies.

Can be used with Electronic Monitoring, Memory, and Printer Unit (LF03401U) and Light Controller (LF03403U).

Features:

- Head with durable, one-piece construction
- Bifurcated lungs
- Available in either light or dark
- Palpable landmarks for hand placement
- Xiphoid, navel, nipples, and rib cage landmarks
- Pliable abdomen for obstructed airway procedure
- Jaw Thrust
