The Five-Year-Old CPR Patient Simulator is a full-body pediatric patient simulator designed to help participants practice and hone basic life support and CPR skills. Fully articulating head and jaw and realistic chest cavity enable participants to work hands-on during chest compression and ventilation exercises.

Product features:

- Fully articulating head and jaw with teeth and tongue
- Individual disposable airways to practice hygienic mouth-to-mouth ventilation
- Realistic chest rise during ventilation
- Carotid, femoral, and brachial arterial pulse sites

- Soft, lifelike face skin with molded hair
- One normal eye and one eye dilated
- Bends at waist
- Intramuscular (IM) Injection Sites on the deltoids and quadriceps
- Jointed elbows, wrists, knees and ankles
- Realistic hands, feet, fingers and toes
- Detachable at waist for easy storage
- Practice CPR
- T-shirt and shorts
- Custom nylon carrying bag
- Instruction Manual
