In response to customer feedback, the new CFPT Mk 3 has been designed with three major improvements in mind:

- greater durability: new materials are harder wearing
- simplified design: model is easy to disassemble and uterine modules are quickly and easily changed (no clips or screws)
- greater variety of modules: each with a different combination of uterine & cervical anatomical variations, and additional pathologies

Presents accurate anatomical and tactile representation of the female pelvis for hands-on examination and diagnosis of pathologies and abnormalities. It can be used for many levels of training from undergraduate onwards, in addition to family health.

Skills

- Recognition of perineal and pelvic anatomy including bony landmarks
- Digital vaginal examination
- Bi-manual examination
- Cervical smear procedure (including use of speculum)
- Digital rectal examination
