This brand new model is a welcome addition to the existing Limbs & Things joint injection range of products. Like the Shoulder, Elbow and Hand & Wrist its purpose is for practicing soft tissue injection used for the treatment of injuries and arthritis. This product has been designed in close collaboration with Mr Jim Pickard and Dr Chris Davies from the University of Huddersfield, UK.

- Patient posture and management
- Palpation techniques
- Identifying anatomical landmarks
- Injection sites for:

- metatarsophalangeal (MTP) joint
- Morton's neuroma
- tarsal tunnel
- plantar fascia
- sinus tarsi
- retrocalcaneal bursa
- tibiotalar joint
- subtalar joint

Features

- Latex free
- Represents normal anatomy as required for palpation purposes
- Easy-to-use Feedback Console: LEDs light up when correct injection sites have been acquired
