Parameters

Types of waves	Mechanické vlnění
Quantitative unit	ks

Supplement to the demonstration wave machine comprising a module with short pendulum bars, a transition module and two module couplers.

If the two models with differing bar lengths and thus differing wave velocities are coupled together, then reflections can be observed at the point where they are joined together. This can be avoided by adding the transition module.

- **Length of bar module 1:** 460 mm
- **Length of bar module 2:** 230 mm
- **Length of bars for transition module:** 230 - 460 mm
- **Total length:** 2 440 mm
