A hollow copper cube for investigating heat radiation from a hot body as a function of its temperature and surface. With a removable lid for pouring in hot water and an opening for inserting a thermometer or thermal sensor. One side each is polished, matt, black and white. A thermopile (U10430) is necessary for measuring thermal radiation.

- **Dimensions:** 100 × 100 × 100 mm
- **Weight:** approx. 300 g

**Additionally required:**

- 5401.U8441301 Moll-Type Thermopile
