

Globe with Bar Magnet
Order code: **5401.1013123**

Cena bez DPH	140,40 Eur
Price with VAT	169,88 Eur

Parameters

Quantitative unit	ks
-------------------	----

Globe with Bar Magnet Used to demonstrate the earth's magnetic field lines. A bar magnet is located at the polar axis. A compass or magnetic field sensor (84 91 900) is then positioned at any given location on the globe's surface so that it aligns with the magnetic field parallel to the longitudinal lines. The inclination can also be determined using the magnetic field sensor.

- **Diameter:** 150 mm
- **Weight:** approx. 150 g

Additionally required:

- 5401.U8491900 Magnetic Field Indicator
- 5401.U19561 Compass
