Intravenous injection simulator.

Practice:

- Preparation – the simulator is easy to wear, with Velcro closure
- Palpation – the simulator contains both veins that are close to the surface and veins that are laid deep
- Intravenous injection – practice with lifelike skin and veins
- Simple venepuncture – two types of veins, thick and thin, the choice of veins is made depending on students' skills

Features:

- Both skin and veins are very realistic, veins are placed both shallow and deep
- Quantity: 5 pieces in one set
- Weight: approx. 0,7 kg (5 pieces)
- Case dimensions (w × d × h): 29 × 20 × 10 cm
- Accessories: irrigator, strap
