This model is fascinating in that it combines various enlargements of specific parts of the tongue in one model. It comprises a macroscopic view of the tongue in life size (dorsal view) and microscopic views of the various papillae of the tongue (10-20x life size) and of a taste bud (approx. 450x life size). All views are mounted on a base that also features an overview of the sensory and sensitive innervation of the tongue.

*Measurements: 14,5 × 32,5 × 20 cm*

*Weight: 800 g*
