PP01931 - Male Catheterization Model

Order code: **4107.PP01931**

Cena bez DPH

486,00 Eur

Price with VAT

588,06 Eur

Parameters

Quantitative unit

ks

Practice male urinary catheterization on Simulaids' newly designed, anatomically correct models. Training is enhanced by a new material that has a realistic feel and flexibility. Both models utilize a 16 FR catheter and can be used to demonstrate balloon inflation procedures. The models are individually mounted on a training stand and can be used on a tabletop or for patient simulation. A fluid reservoir allows for urine output upon successful completion of the insertion procedure. Instructors are able to teach sterile technique and insertion and removal of catheter, as well as practice preparing the patient for the procedure.
