HAL® S315.100 is an easy-to-use and portable airway management and CPR skills trainer. HAL was designed to help you teach basic and advanced airway management as well as cardiopulmonary resuscitation. HAL helps participants learn to recognize laryngospasm and practice performing emergency tracheostomies and cricothyrotomies.

HAL® is optionally available in a full-body configuration.

HAL® S315.100 Adult Multipurpose Airway and CPR Trainer

HAL helps you teach basic and advanced airway management as well as cardiopulmonary resuscitation.

Realistic Airway

True-to-life airway with tongue, vocal cords, trachea, and the ability to simulate laryngospasms.

Nasal and Oral Intubations

High-fidelity airway supports intubation using standard adjuncts: ETT, LMA, King LT®

Surgical Airway Insert

Surgical airway supports cricothyrotomy and tracheostomy.

Product Features

General

- Manually open or close eyes
- Normal, miosis (constricted), and mydriasis (blown) pupil states
- Independent left/right pupil states simulate consensual and nonconsensual response
- Realistic head tilt/chin lift and jaw thrust
- Durable, lifelike airway anatomy
- Nasal and oral intubation: ETT, LMA, King LT
- Laryngospasms
- Supports tracheostomies and cricothyrotomies
- Palpable carotid pulse
- Visible chest rise with bag-valve-mask ventilation
- Gastric distension with esophageal intubation
- Right mainstem intubation presents unilateral chest rise
- CPR hand positioning landmarks
- Realistic chest compression recoil and depth
- Carrying bag

Full Body Configuration (Optional)

- Full-size adult male
- Removable lower arms and legs for easy carrying
- Supports prone and sitting positions
- Articulated neck, shoulder, elbows, hip, knees, and ankles
- Includes carrying bag
