

Information about product price on demand

Parameters

Circulation	Forced
Volume	222 l
Brand, Manufacturer	BMT
Inner dimensions (w x d x h) [mm]	540 x 520 x 760
Quantitative unit	ks

- Natural, precise - laboratory incubator
- 222-liter chamber volume
- Working temperature of from +10°C over ambient temperature up to 100°C
- Patented system of air flow in the chamber ensures quicker and more accurate distribution of the preset temperature in the chamber, which enables ideal heating of the samples

- High operation comfort, precise temperature regulation and short times of temperature recovery in the chamber after the door opening; the standard equipment includes inner glass door
- Model with a fan ensures quicker and more accurate distribution of temperature with small deviations; suitable for demanding and accurate tests and samples cultivation
- Standard model with a Fuzzy logic microprocessor control system; control elements situated on a foil keyboard, process information indicated on a LED display
- Wide range of optional equipment and accessories
- Output for a printer or PC connection
- Validation possibility (IQ , OQ)
