

COD165 - Thermoreactor
Order code: **0206.COD165**

Price with VAT

1.873,08 Eur

Parameters

Quantitative unit

ks

Specifikation:

Accuracy	±0.2 end of scale %
Electrical Requirements	100 to 220V 50/60Hz
Frequency	50/60Hz
Heating Block Temperature Homogeneity	±0.5°C
Heating Block Temperature Precision	±0.1°C
Heating Block Temperature Stability	±0.5°C
Over-Temperature Protection	Yes
Safety Cover	Clear plastic, hinged to flip up for loading and unloading
Sample Size	Up to 25 Digestion Tubes, 16mm diameter
Temperature Probe	Pt100 class A
Temperature Probe Calibration	Automatic by software
Temperature Selection	100, 120, 150, 160 or 165°C
Thermoregulator	PID microprocessor
Time Selection	30, 60, 120 min. or continuous
Wattage	400w
Description	COD165 Thermoreactor
Item Description	AQUAfast COD165 Thermoreactor
Voltage	100 to 220V
Weight (English)	127 oz.
Weight (Metric)	3.6kg
Unit Size	Each
