Parameters

Present your students with the challenges they may face in the real world. Trainer offers tongue swelling and laryngospasm in addition to all the features on the standard models. This Life/form® advanced airway management trainer is perfect for practicing skills on pediatric patients and represents the size of an 5-year-old patient. Practice intubation, ventilation, suction, and jaw thrust techniques. Realistic anatomy and landmarks include teeth, tongue, oral and nasal pharynx, larynx, epiglottis, arytenoids, false and true vocal cords, trachea, lungs, esophagus, and stomach. The trainer allows you to practice oral, digital, and nasal intubation, as well as E.T., E.O.A., P.T.L., L.M.A., E.G.T.A., Combitube®, and King System insertion. Separate lungs for auscultation. Manual carotid pulse. Inflatable stomach bladder indicates esophageal insufflation. With its slightly anterior position, swelling tongue, and vocal cords, the Life/form® Advanced Child Airway Management Trainer is a great trainer for introductory as well as advanced training. Includes training stand to mount head, pump spray lubricant, hard carry case and instruction manual. Manual carotid pulse.
