- Detailed description

ADULT MALE & FEMALE

Lifecast Body Simulation Adults are highly accurate and lifelike, designed and manufactured in the UK. Based on the lifecasts and scans of real people, Lifecast Adults feature lifelike details including replication of veins and underlying structures, hair and precise anatomical mouths and airways enabling ALS airway management.

Available in a wide range of ethnicities and created with usable weight and average adult heights, Lifecast Adults encourage more natural handling, bringing a new level of realism to medical training and demonstrate our belief in building simulation training tools that create emotional attachment and engagement.

ALS ADULT - KEY FEATURES

- Male based on a 50 year old (approx)
- Weight 30-40Kg
