This new set is the ideal starting point for the uncertain beginner. Whilst, the Punch/Shear and Riveting/Bending/Rolling tool are able to work with 20mm x 3mm material, the inclusion of the Mk 1/2 Scroll Former means that it is aimed at lighter weight craft and DIY projects using 10mm x 1.6mm or 12mm x 2mm material. It is worth bearing in mind that this set's capabilities can always be increased at a later date by the separate purchase of larger scroll formers and twisting tools.

**Please note:** The maximum working capacity stated is for Hot Rolled Mild Steel Bar and Annealed Bright Mild Steel Bar. Working beyond these limits or with material of greater hardness may reduce the operational life of the machines.
