17 exciting models ready for discovery by the technicians of the future! Students can complete X fun experiments using models like a beam balance, a scissors lift or a windscreen wiper to learn about the exciting technology behind them. Of course, they can also build all kinds of different gears, like a clockwork mechanism, different planetary gears or a differential gear. Additional free materials are available online to help teach about these concepts.

Highlights:

- Lever principles
- Ratios
- Four-link systems
- Pulleys
- Differential gears
- Planetary gears

In the education set included:

- Gear wheels in different sizes
- Bevel gears
- Screw
- Various axes
- Rope with winch and pulleys
- Chain
- Building blocks and base plate 258x186mm

320 components are included

17 quickly buildable models
