This flexible X-Ray phantom Pelvis contains real human bones and offers the unique opportunity to take real x-ray images. This Phantom consist of a complete pelvis including coccyx, two lumbar vertebrae (L4+L5) and femur stumps. The soft material makes this product ideal for palpation.

The natural bone used may have, depending on availability, individual pathological changes, minor structural defects or mounting holes. Delivered with strong transport case.

Size: 50 x 40 x 25 cm, weight: 2 kg

Including a transport and storage case
