

Jaw Crusher BB 200 jaws manganese steel/ wearing plates stainless steel, 400V

Order code: 1306.200530001

Information about product price on demand

Parameters

Jaws	Manganese steel
Wearing plates	Stainless steel
Accessories	NO
Grind	Jaw crushers
Quantitative unit	ks

The Jaw Crusher BB 200 is used for the rapid, effective crushing and pre-crushing of medium-hard, hard, brittle and tough materials. Its variety of materials offered, including heavy-metal free steel, its efficiency and safety makes it ideal for sample preparation in laboratories and industrial plants.

Material feed size: < 90 mm

Final fineness: < 2 mm excellent crushing performance

- wear compensation with zero-point adjustment
- infinitely gap width setting
- overload protection
- wide range of materials for contamination free grinding
- no-rebound feed hopper with quick-release clamp
- brake motor with safety switch
- easy-to-clean crushing chamber
- continuous grinding
- connector for dust extraction
- maintenance- and lubricant-free sliding bearings
- suitable for integration in automatic installations
- special version for grinding semi-conductor materials
