Quantitative unit

ks

When you need an easy-to-move recording and/or debriefing system that can be easily moved from one space to another, the solution is the

stylish Nordic Move!

Nordic Move's white frame and blue door make the furniture a decorative unit. All the necessary technology, cameras, and cabling conveniently fit inside the cabinet, and there is no need to worry about how to transport all the various bits and pieces around. Just roll Nordic Move from one room to another, and turn on all the hardware at a single push of a button.

Nordic Move is available for two different purposes. Use Nordic Move for debriefing purposes only or as a full-blooded simulation recording & debriefing system.

NORDIC MOVE D

Debriefing

Nordic Move D is a debriefing unit without cameras and recording capabilities.

Implement your debriefing-session with ease anywhere, anytime.

Roll the Move D into place next to an appropriate wall, press start, display, and analyze.
