DVPP-10-L - Deep Vessel Venipuncture Tissue Pad Package (DVP-10-L, IVB-10) - Light Tone

Order code: **4129.DVPP10L**

Information about product price on demand

Parameters

Cannula, injection, puncturing - filter

Puncture, anesthesia, injections

Practice venipuncture or peripheral catheterization on Simulab's ultrasound-compatible Deep Vessel Venipuncture Pad. The Deep Vessel Venipuncture Tissue Pad Package includes two simulated IV Bags, Red Fluid, and a Table Top IV Pole. The realistic tissue of the pad and fluid-filled vasculature simulate veins that are located deep in the body.

Available in Light, Medium, and Dark Tones.

Includes:

- One Deep Vessel Venipuncture Pad
- Red Concentrate for fluid
- Two Simulated IV Bags
- Table Top IV Pole

Features:

- Ultrasound compatible
- Three various-sized veins
- Simulates veins deep in the body
- A thick tissue layer obscures vessels
- Double-sided tissue Vessel depth ranges from 17.75 to 20.3 mm on the shallow side and 22.85 to 25.4 mm on the deep side
- Durable, self-sealing tissue when viewed under ultrasound, does not show needle tracks
- Refill veins for multiple uses

Skills:

- Obtain intravenous access
- Withdraw fluids
- Insert a catheter into a deeply seated vein
- Practice the use of ultrasound guidance
- Practice patient interaction during the procedure
