LVPP-10-L - Venipuncture Tissue Pad Package (LVP-10-L, IVB-10) - Light Tone

Order code: 4129.LVPP10L

Information about product price on demand

Parameters

Cannula, injection, puncturing - filter

Puncture, anesthesia, injections

The Venipuncture Pad Package includes the tools you need for training. Our ultrasound-compatible Venipuncture Pads are perfect for practicing venipuncture, nerve identification, or peripheral catheterization on three varying-sized fluid-filled veins. The veins in the pad are slightly visible through the skin surface and obscured by a thicker tissue layer on the other side. Available in Light, Medium, and Dark Tones.

Includes:

- Large Venipuncture Pad
- Red Concentrate
- Luer Lock Syringe for refilling vessels
- Two Simulated IV Bags and Table Top IV Pole

Features:

- Ultrasound-compatible
- Three differently sized veins
- A thick tissue layer obscures three veins in this two-sided pad
- Includes Luer lock tips, a syringe, and eight ounces of fluid for easy refilling
- Very durable, self-sealing tissue that, when viewed under ultrasound, does not show needle tracks
- Refillable veins for multiple uses

Skills:

- Obtain intravenous access
- Fluid withdrawal
- Insertion of a catheter into a deep vein
- Using ultrasound guidance for vessel identification
- Practice patient interaction during the procedure
