- Detailed description

The Basic Open Surgical Skills (BOSS) Starter Package is a flexible platform for developing basic to advanced surgical skills. The platform combines task features to practice instrument handling, suturing, injection, and knot tying techniques. Its easy-to-clean platform for synthetic or cadaveric task modules and ergonomic design make it an excellent skill-building tool.

The BOSS Starter Package includes a BOSS platform, the Student Tissue Pack, Suturing Instrument Kit, and a Guided Surgical Skills Training Video and Self-Assessment Metrics developed by the University of Washington.

Includes:

BOSS Suturing Trainer BOSS-20 Student Tissue Pack (BTP-10) includes Subcuticular Tissue Pad, Complex Tissue Pad, Injectable Tissue Pad, Suture Tissue Pad, Large Intestine Suturing Instrument Kit (SIK-10) Video-Guided Surgical Skills Tutorial Self-Assessment Metrics

Features:

- A durable multi-use platform that can be used with any combination of materials
- Ergonomic design ensures correct hand positioning
- Small, portable platform perfect for simulation lab or home use
- Provides a variety of tissue materials on which to practice basic surgical tasks
- Tubing for knot tying under tension
- Hook for knot tying
- Cylindrical cup for knot tying and suturing at depth
- Tissue tensioning device
- An open site with a flexible fixation system

Skills:

- Basic to advanced suturing
- Suturing on a skin surface
- Subcuticular suturing
- Knot tying under tension
- Knot tying at depth
- Administering injections
- Instrument handling
- Wound closure techniques
- Bowel anastomosis
