Parameters

Surgery - filter

Basic surgical skills

Quantitative unit

ks

The Suture Foam Task is a proficiency-based task designed to teach technical skills required in basic laparoscopic surgery.

Suture Foam Task allows students to practice endo stitch and various knot tying techniques in a box-trainer by marrying up 4 x 4 red foam parts and suturing.

Use with any of Simulab's Laparoscopic Trainers, or secure to table for the classroom, clinic, home, or office use.

Features:

- This task includes proficiency metrics for self-assessment or skills lab
