## Hei-PLATE Mix 'n' Heat Core (135 mm)

Order code: **2111.5061210000**

Information about product price on demand

Parameters

Device type

Magnetic stirrers

Types of stirrers	Magnetic
Description	5 °C - 31 °C at up to 80 % rel. humidity 32 °C - 40 °C at up to 50 % rel. humidity (decreasing linearly)
Speed [rpm]	100 - 1 400 ot./min
Plate diameter [mm]	135
Heating capacity [W]	800
Heating	YES
Maximum speed	1400 rpm
Number of positions	1
Quantitative unit	ks

In accordance with the motto "simply stir and heat", our entry-level model Hei-PLATE Mix 'n' Heat Core was designed with two rotary knobs to allow direct access to the two main functions. The speed and temperature are set using a scale. The maximum values are 1,400 rpm and 300 °C.

This magnetic stirrer is very easy to use and is equipped with the most important safety features. The large safety distance between the heating plate and the control elements, as well as the optical residual heat indicator at temperatures > 50 °C, protect against burns.

The heating function can be activated separately and is indicated by the LED button lighting up.

The patented Kera-Disk® footprint made of anodized aluminum, is chemical-resistant, scratch-proof, and has a diameter of 135 mm. This unique size makes it suitable for use with many accessories and samples on a small footprint. The material used also enables the fastest heating times.
