Parameters

The Practi-0.9% Sodium Chloride 250mL I.V. Solution Bag, for clinical training, contains distilled water. A perfect IV administration simulation for your nursing, pharmacy, EMT or other allied health skills laboratories. NO PRESCRIPTION NEEDED.

The bag contains distilled water, making it suitable for use on manikins/skill trainers that are compatible with fluids.

The IV-Bag Optimizes Users Competencies in:

- Practicing handling and setting up of IV bags
- Understanding and adhering to established protocols and guidelines for IV therapy.
- Learning the correct procedures for hanging, priming, and adjusting the flow rate of IV bags.
- Developing safe handling techniques for IV bags, minimizing the risk of errors or contamination.
- Simulating patient interactions related to IV administration, fostering communication and bedside manner in a simulated environment
- Enhance critical thinking skills by making decisions related to IV therapy based on simulated scenarios.
- Simulating responses to potential emergencies or complications related to IV administration.

Qty: 1 bag

Product Content: Distilled water

NOT FOR HUMAN OR ANIMAL USE. FOR TRAINING PURPOSES ONLY.
