Practi-Amp 10mL for clinical training is intently crafted to include all standard components of an ampule, excluding a specific generic or brand name. This design facilitates repetitive learning with the ampule, allowing its use both without a name and with a name using the Peel-N-Stick label for varied educational scenarios. Each glass ampule is chemically scored at the neck for ease of breakage without injury!

The first and safest true glass ampule available for a variety of health occupational curricula, such as nursing, pharmacy tech, and EMS programs.

The Practi-10mL Amp Optimizes Proficiency in:

- Fluid displacement from top to bottom
- Sterile technique during aspiration
- Ampule opening/breaking
- Dosage measurement

Make practice easy, consistent and accurate!

Snap, aspirate, calculate, and measure critical dosages using Wallcur 10mL distilled water glass ampules.

Qty: 100 ampules

Product Content: Distilled Water

NOT FOR HUMAN OR ANIMAL USE. FOR TRAINING PURPOSES ONLY.
