The Practi-Powder White 10mL, for clinical training, is a white powder designed to simulate multiple drug dosages. Each 10mL vial contains a white powder that dissolves in either 0.9% NaCl or water to become a clear solution. The Practi-Powder White vial label is designed to accurately reflect multiple antibiotic dosage strength preparations.

Can be used in conjunction with Practi-Vials Liquid/Diluent to simulate and practice reconstitution.

Distinctive Skills the Vial Teaches:

- Adding and mixing diluents
- Sterile vial opening and handling
- Practice the skills of Reconstitution:
- Read and interpret medication labels
- Needle changes and syringe techniques
- Air displacement and dosage withdrawal
- Calculating and measuring multiple drug dosages

Qty: 30 vials

Product Content: Unsterile fructose powder

NOT FOR HUMAN OR ANIMAL USE. FOR TRAINING PURPOSES ONLY.
