The Practi-70/30 & Glargine Pack for clinical training is uniquely designed and labeled to accurately simulate 70/30 and insulin glargine (Lantus®) vials as would be found in a typical clinical practice today. The simulated 70/30 vial contains an additive that mimics the action of its true drug counterpart as it must be rotated, mixed, and promptly withdrawn before it precipitates out.

The pack contains 20 vials labeled Practi-Insulin 70/30 and 20 vials labeled Practi-Insulin Glargine.

Distinct Skills to Acquire:

- Calculating insulin dosages
- Reading and interpreting differing insulin labels that often look-a-like
- Mixing, combining, and promptly withdrawing short and long acting insulin
- Identifying and understanding two of the most commonly ordered insulin medications
- Identifying injection site landmarks, and aseptic precautions when administering insulin

Qty: 40 vials

Product Content: Distilled water, barium sulfate

NOT FOR HUMAN OR ANIMAL USE. FOR TRAINING PURPOSES ONLY.
