Practi-75/25 & Regular Pack for clinical training is designed and labeled to accurately simulate 75/25 and regular insulin vials found in clinical practice today. The Practi-Insulin 75/25 contains an additive that mimics the action of its true drug counterpart as it must be rotated, mixed, and promptly withdrawn before it precipitates out. Teach insulin injection techniques, mixing and combining of short and long acting insulin, and dosage calculations skills with this comprehensive teaching aid.

Distinct Skills to Acquire:

- Calculation of insulin dosages
- Reading and interpreting differing insulin labels that often look-a-like
- Mixing, combining, and promptly withdrawing short and long acting insulin
- Identifying and understanding the most commonly ordered insulin medications
- Identifying injection site landmarks, and aseptic precautions when administering insulin

Qty: 40 vials

Product Content: Distilled water, barium sulfate

NOT FOR HUMAN OR ANIMAL USE. FOR TRAINING PURPOSES ONLY.
