Order code: **4134.TFWP031**

Cena bez DPH	406,00 Eur
Price with VAT	491,26 Eur

### Parameters

Quantitative unit ks

The Neck Gunshot Wound Packing Trainer is a cutting-edge simulation device designed specifically for replicating gunshot wounds in the neck area. Its primary focus is to educate students on the proper techniques for packing wounds in this critical region.

The Neck Gunshot Wound Packing Trainer's wearable design allows for direct interaction with the simulated wound cavity on the neck, ensuring a practical and immersive learning experience.

In summary, the Neck Gunshot Wound Packing Trainer is an exceptional training tool that offers an unparalleled level of realism and usability. With its neck-specific design and two attachment options, it provides a comprehensive training experience for individuals looking to enhance their wound packing skills in this critical area.
